Monthly Update

January 2023

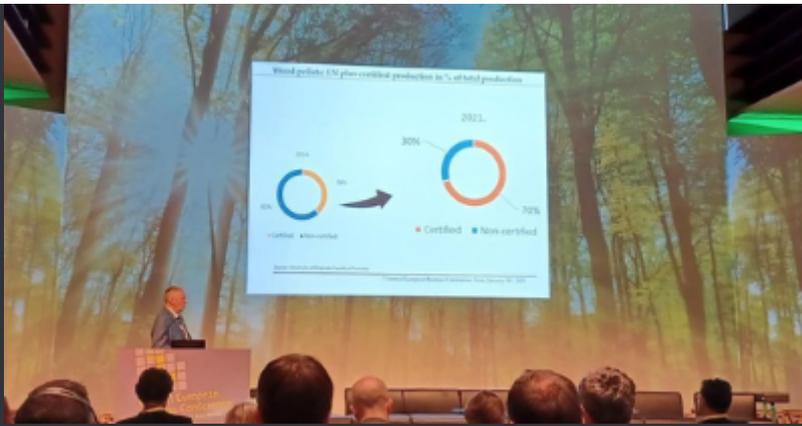

Eric Vial from [Propellet France](#) expects a slowdown in market development this year. [Read the full interview here.](#)

We are now using the ENplus® Certification Platform (Radix Tree) - an interactive web-based solution that helps us with the management of the scheme by collecting all information and gathering all the actors in one place. [Learn more about it.](#)

ENplus® supported the first edition of the European Pellet Forum. During the event, it was reported that 70% of the pellet production in Southeast Europe is ENplus® certified (as of 2021, excluding data for Bulgaria and Greece).

Updated version of the instructions for conducting ENplus® inspection of companies located in war zones has been published. You can [find it here](#).

Do you know?

In 2021, the average percentage of households with pellet stoves in Italy was 7.11%, while in France it was 4.62%. More useful information about the state of the pellet market in most European countries can be found in [Bioenergy Europe's Statistical Report 2022: Pellets](#).

The 9th ENplus® Inspectors' Workshop took place in Brussels this week. The inspectors got familiar with the latest changes introduced with the scheme revision and will be able to conduct inspections according to the new requirements and procedures.

European Pellet Council and [SURE](#) organise a special webinar on 7 February 2023, dedicated to the premium

pellet producers with interest in the SURE certification. If you are a pellet producer who would like to attend, [register here](#).

• [Liptovský Hrádok, Slovakia](#) – 21.02.2023

The main focus of the training event will be the new requirements brought with the revised documentation. The quality managers of the certified companies should complete a training every certification period. >>

The Swedish Bioenergy Association (SVEBIO) organises the Nordic Pellets Conference 2023 on 1-2 February 2023 in Gothenburg, Sweden. Information about [the agenda and the speakers can be found here](#). >>

Pellets – clean and climate neutral! This is the focus of the 2023 edition of the European Pellet Conference that will take place on 1 March 2023, as part of the World Sustainable Energy Days (WSED), a leading annual conference on the energy transition and climate neutrality. [Learn more about the speakers and the program here](#). >>
